

Company Profile

Shanghai Horse Construction Technology Co.,. Ltd was found in **2006**, has been dedicated to developing,manufacturing,sales and service of strengthening material, With industry-leading innovative technology, it has built a global marketing network, and its national sales have been far ahead for **19** consecutive years. Our products sell well in **86** countries and regions such as Britain, the United States, France, Italy, Russia, New Zealand, Singapore and Brazil etc.

Industry
experience

19 years

900000⁺ Global
projects

Market share
in China

30%

7000⁺ Global clients

Authorized
patents

100⁺

30% Ratio of
technical engineers

Best Choice for 86 countries worldwide

Best-selling in Britain, the United States, France, Italy, Russia,
New Zealand and other countries and regions.
Protecting the lives of billions of people at all times

Best
Choice
for

86

countries

● Top 1 band in China

Company Culture

Value

Integrity based,
customer first

Mission

Producing the highest quality structural
strengthening materials, removing
hidden perils of concrete structures to
save lives and buildings.

Vision

Become the best brand of concrete
strengthening materials on the world

Certificates of honor

Within the over 19 years in construction
strengthening industry

Horse has been awarded national,
provincial and other industry authority awards

☆ Shanghai Science Technology Giant Enterprise ☆

Enterprise strength

Investment in scientific and technological innovation is much ahead of the industry
obtained more than 100 national technology patents and software copyrights

Deep technical background

Participated in the development of a number
of national and industry standards

GB/T 37127-2018 Anchors for concrete structures

GB 50550-2010 Code for acceptance of construction

quality of strengthening structures

T/CECS 10080-2020 Epoxy structural adhesive for precast segment assembly

Technical specification for active repair of fatigue

cracks of steel structure Bridges

Technical specification for reinforced concrete bridge

with fiber composite material for highway

Epoxy mortar for interface of steel-mixed composite beams

Technical specification for strengthening log structures with

fiber reinforced composite materials

Technical standard for inspection and evaluation of connection of

components of prefabricated bridge engineering

Joint in-depth cooperation with research institutes,
schools and enterprises

Cooperate with senior experts and scholars to
carry out product testing and application research

Our own laboratory adopts all imported
experimental equipment

.....

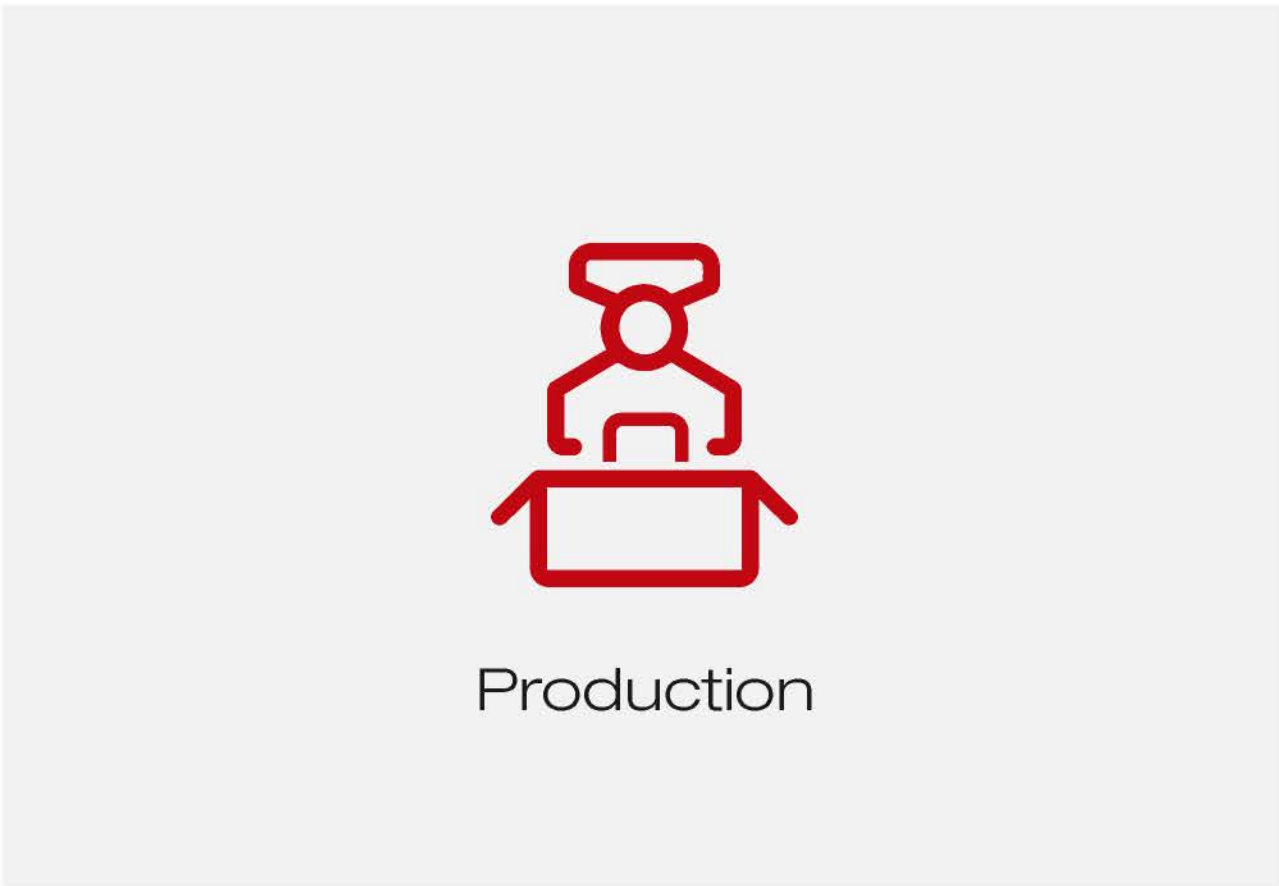

Chinese Academy of Sciences doctoral
supervisor is specially hired as Horse
technical expert consultant

Set up joint research and development
center with Tongji University

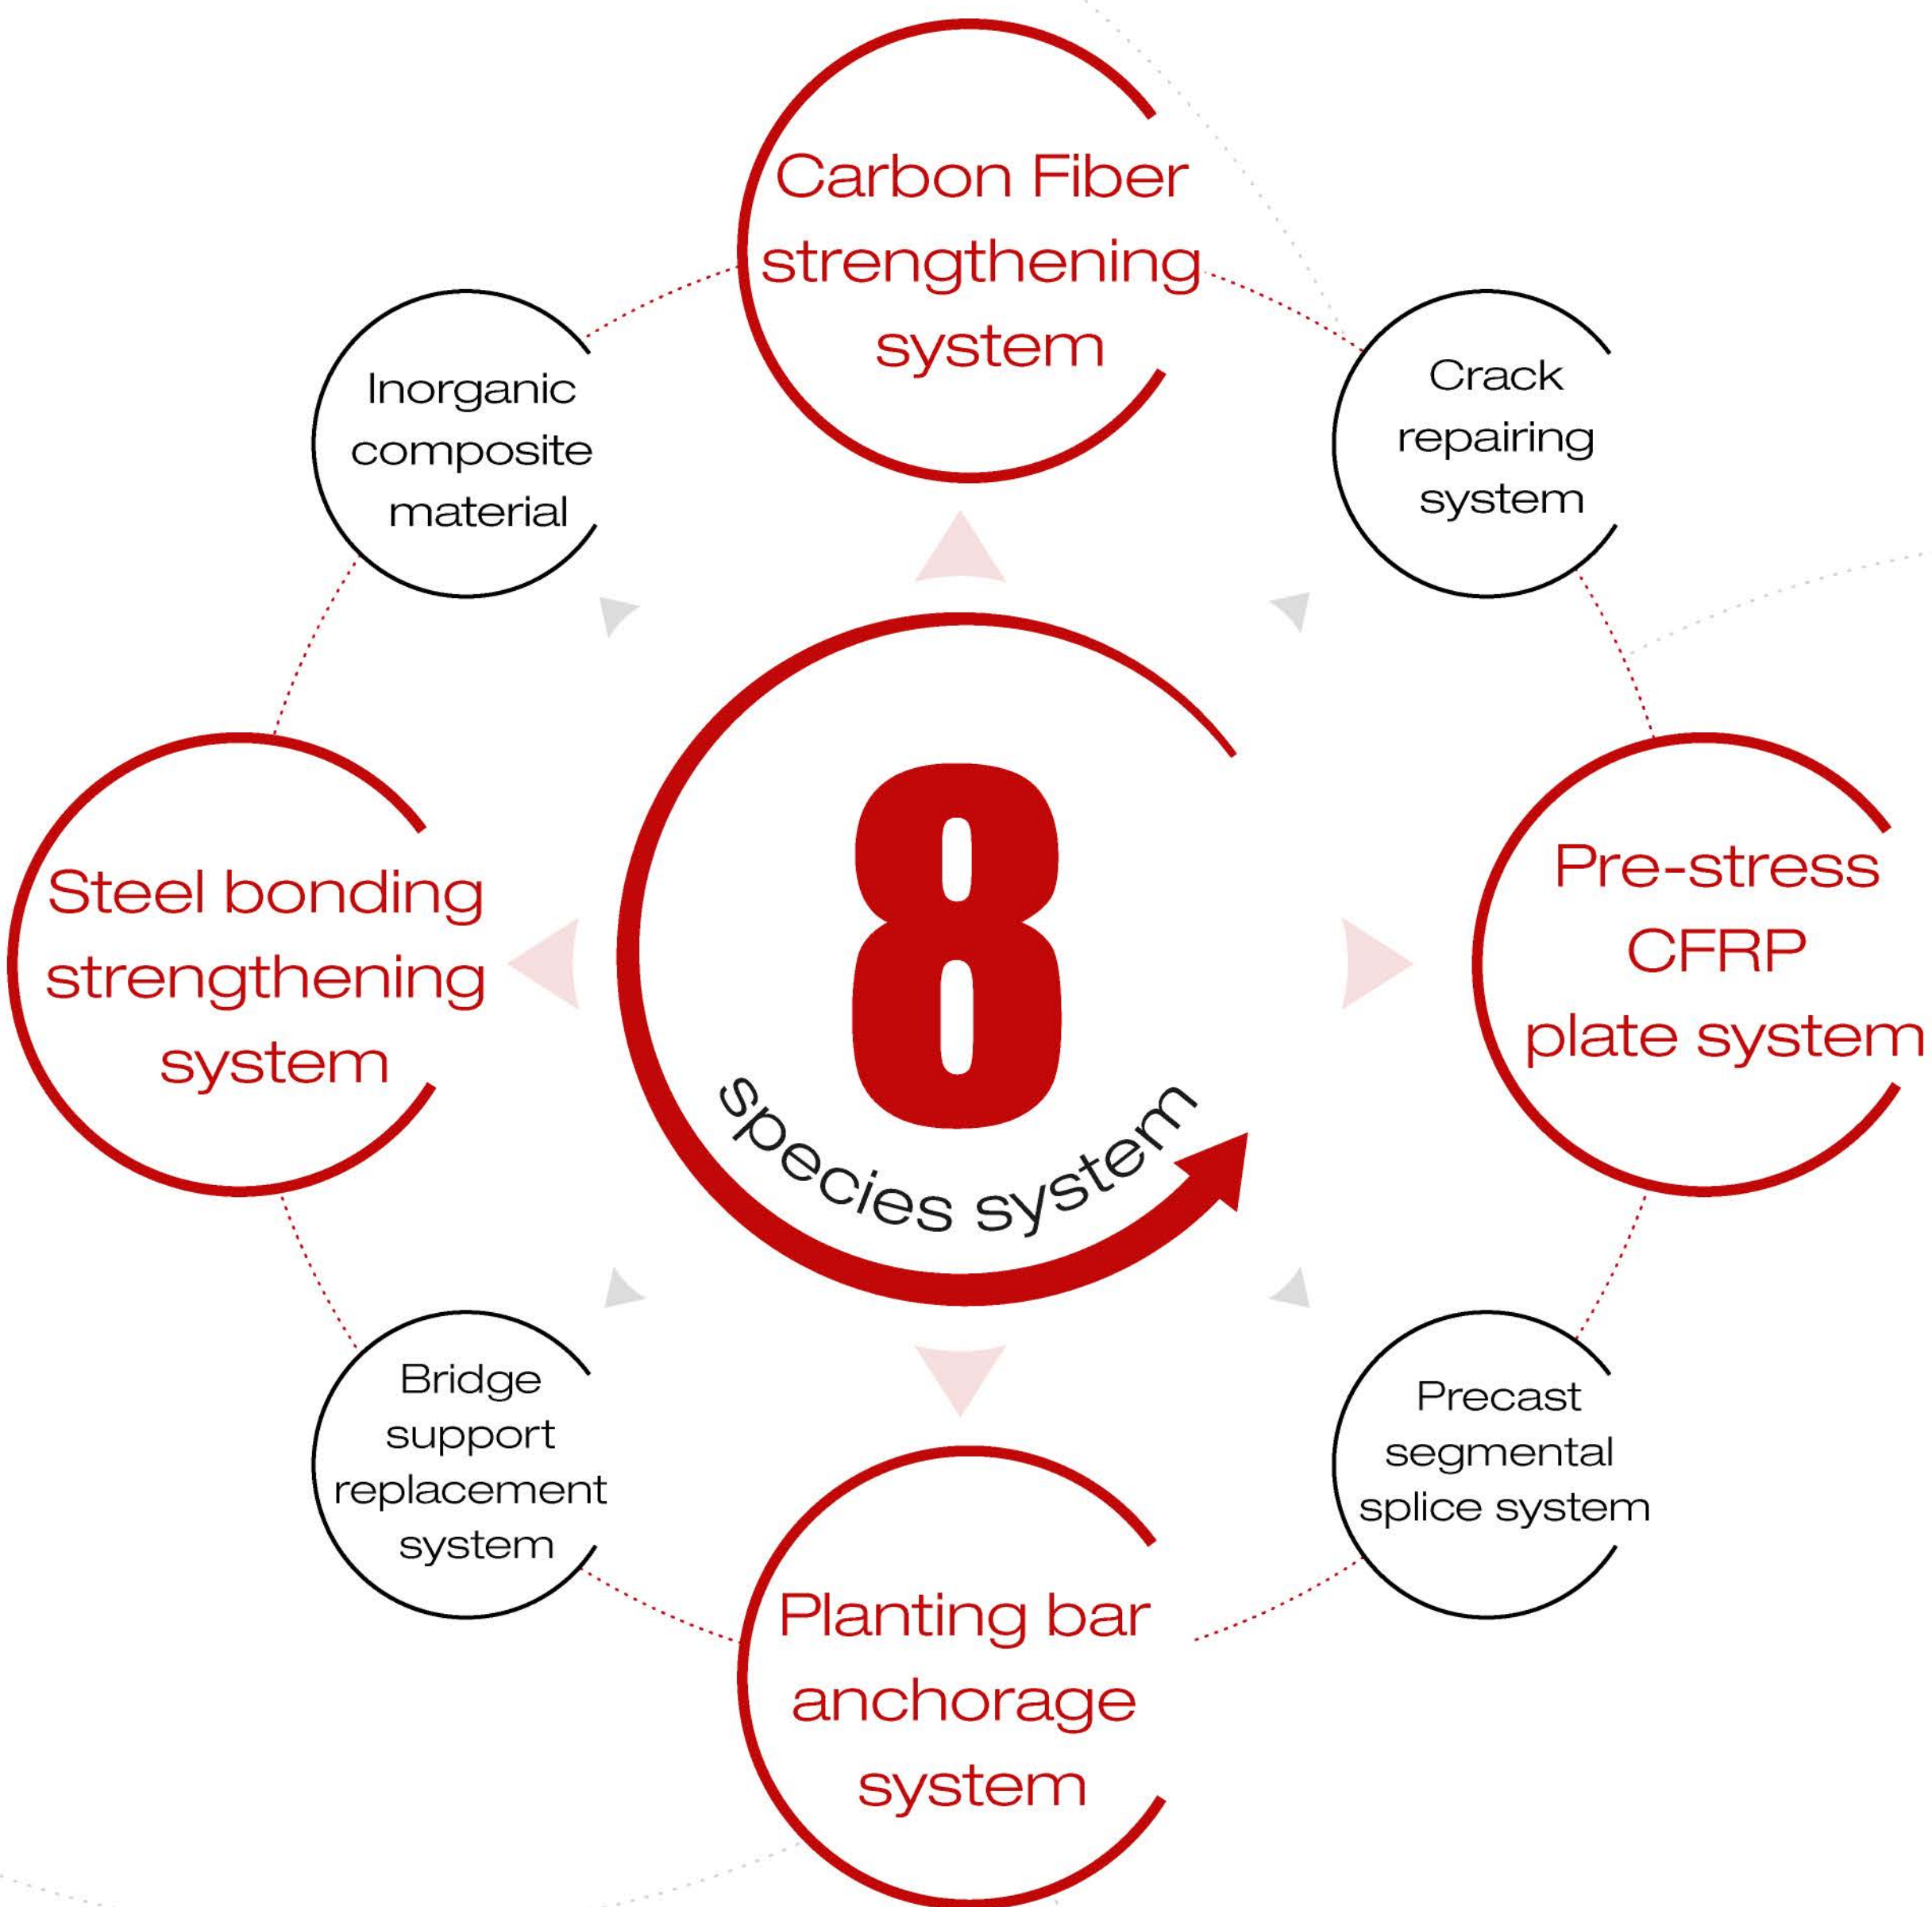

Established a joint training base for
graduate students with
Nanjing Forestry University

Products & Service

Provide urban renewal and structural strengthening
professional solutions
and customized products and services

8 species system

40 types strengthening material

All the performance of the products meet the requirements of national standards
Through the ISO9001、ISO14001、ISO45001、EU CE、Switzerland SGS、France BV、
Germany TUV American ASTM and other international certification authority

Complete test report of 270 indicators in 10 categories

0 Safety accident 12years has been issued by PICC

Service

服务

Huge stock capacity

Sea/air/courier/truck/train delivery

EXW/FOB/CIF/DDP

Products durability over **50years**

Provide the technical service **all along**

All products of random samples can

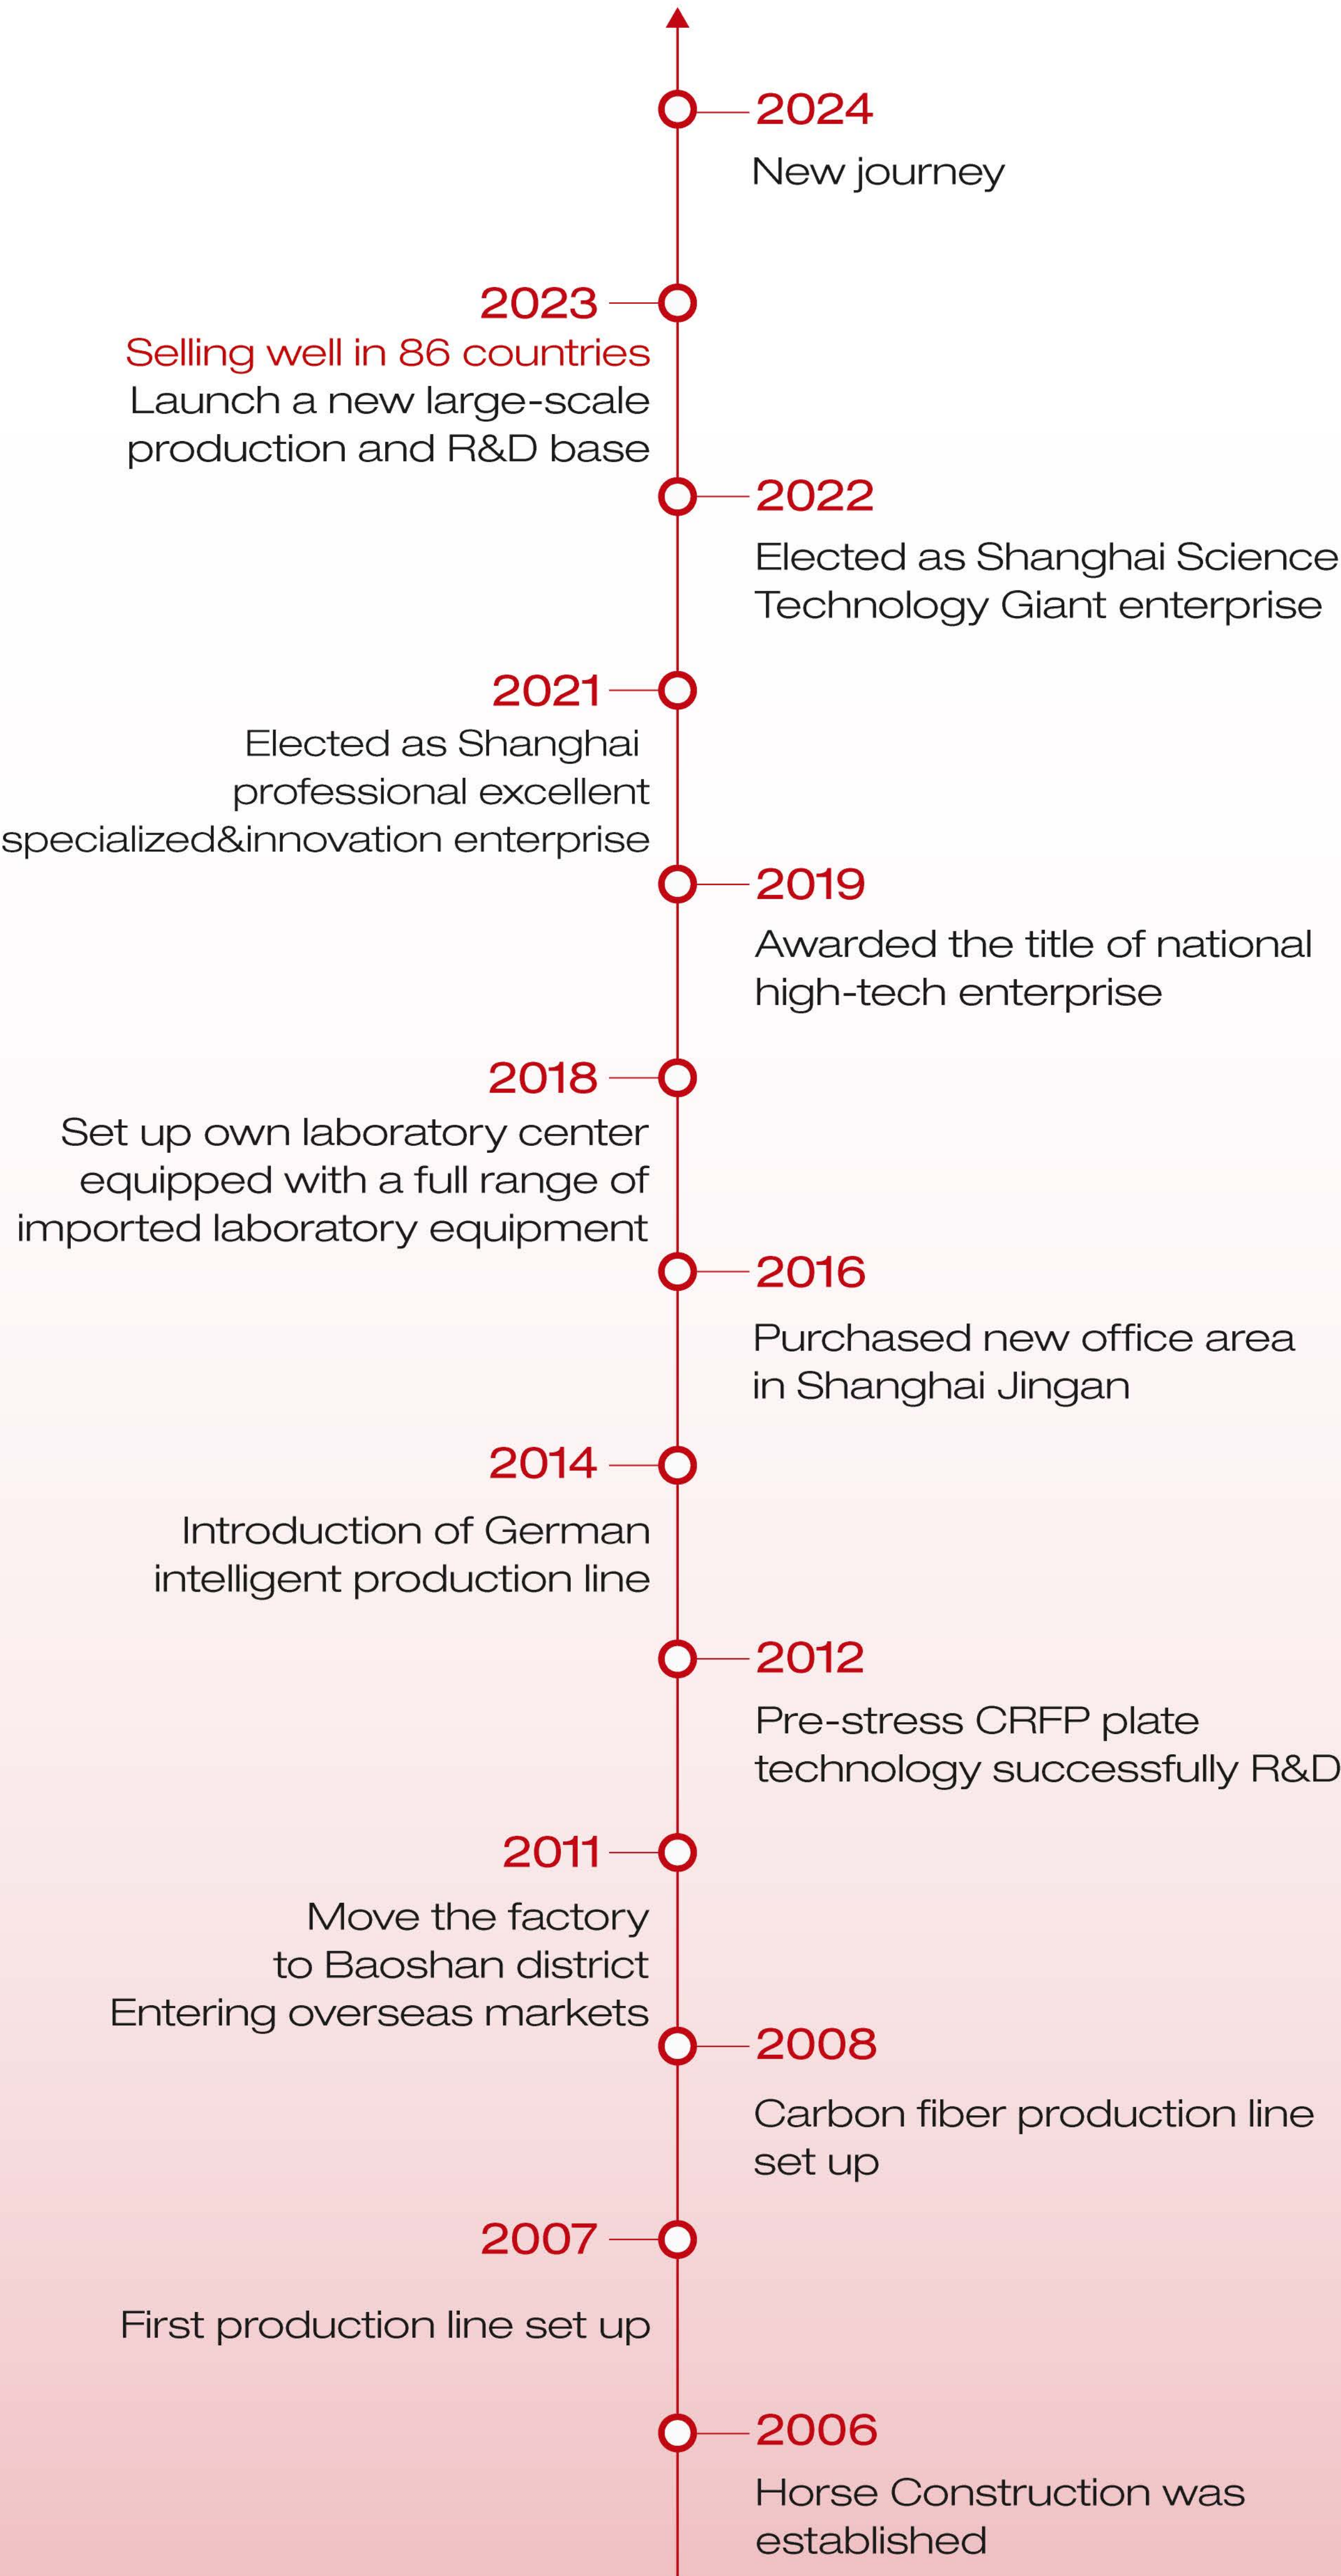

Reach the national standards

Undertake all the quality issue losses

| durability over **50** years

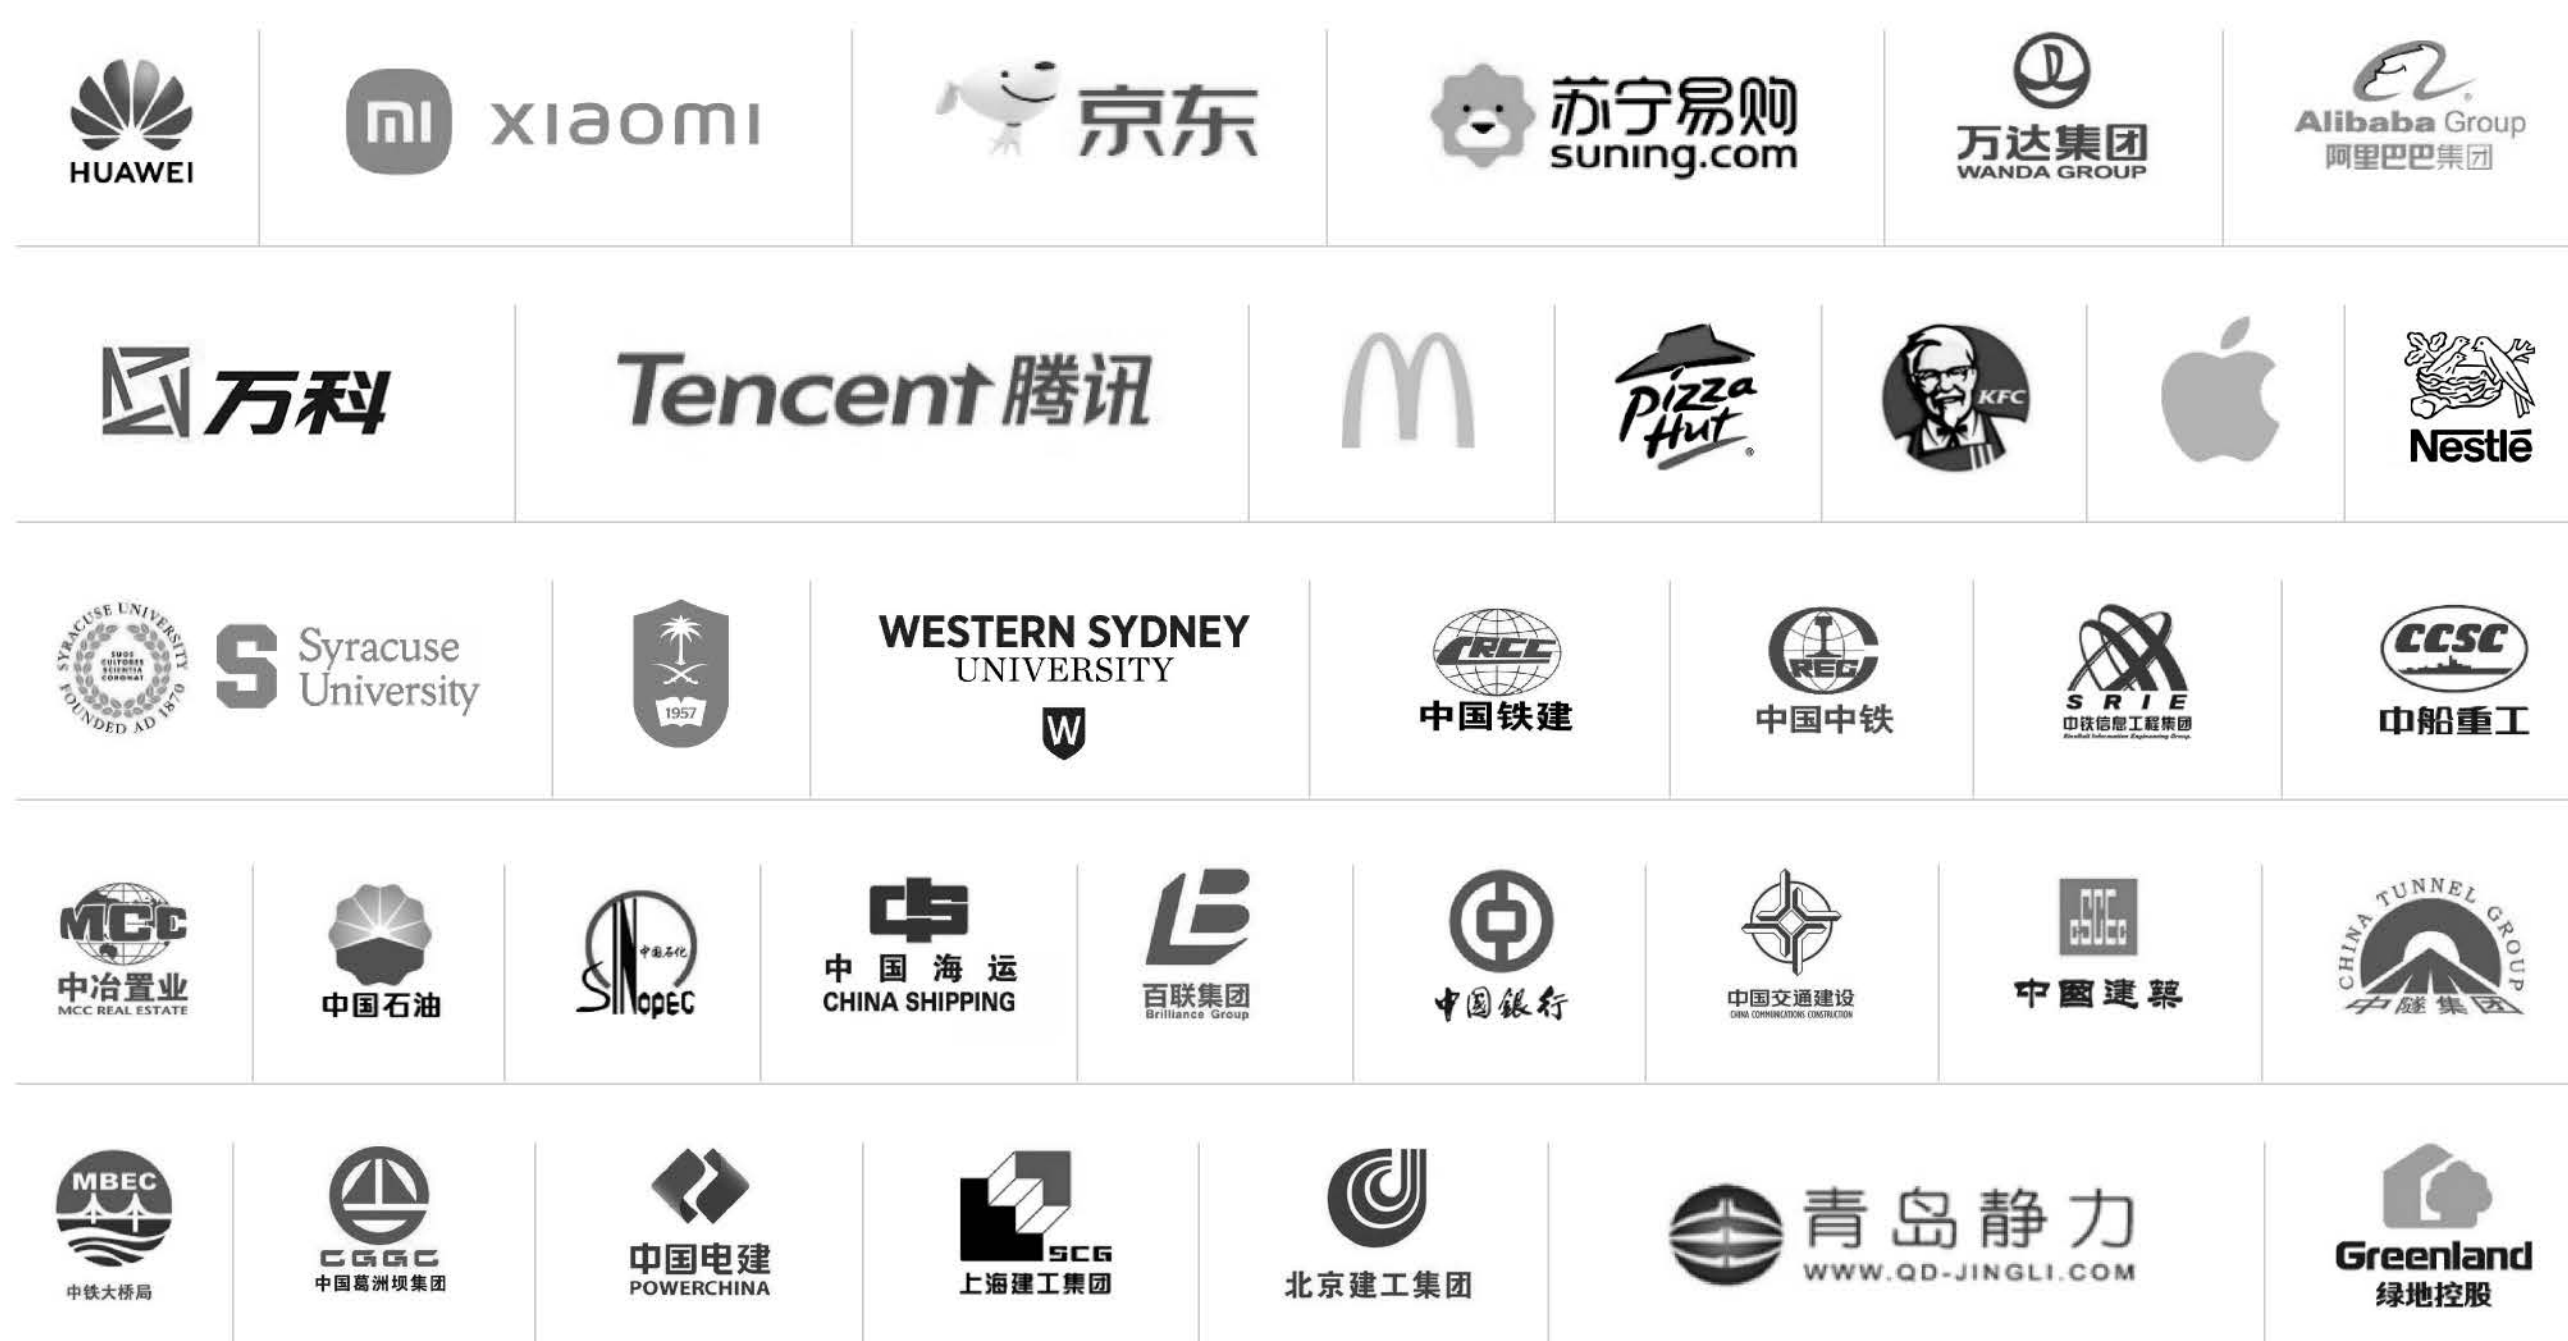

History of Horse

Global customer **70000+**

全球客户

Global projects **90000+**

全球案例

Airports, houses, ports, overseas projects,
roads and Bridges
Highway & tunnels, water conservancy and Dam,
historical buildings
